OBJECTIVE

I am a passionate Bachelor of Engineering graduate specializing in Computer Science, proficient in programming languages such as C, C++ and Python. With a strong foundation in software development and web technologies. I aim to leverage my technical expertise in professional settings to deliver impactful solutions. My academic journey has equipped me with problem-solving skills and a collaborative mindset, making me eager to contribute effectively in practical environments.

EDUCATION

Bachelor of Engineering in Computer Science Engineering

Ajeenkya DY Patil School of Engineering, Lohagaon, Pune Pune University | **SGPA:** 9.05/10.00

Nov 2022 – May 2026

Higher Secondary Certificate (HSC)

Mahendra Madhukar Ware Junior College, Ahilyanagar

Percentage: 85.17%

June 2020 – Feb 2022

Secondary School Certificate (SSC)

Shrikant Pemraj Gugale High School, Ahilyanagar

Percentage: 92.20%

June 2014 – March 2020

SKILLS

Programming Languages: C , C++ (DSA in C++), Python – Basic proficiency

Web Technologies: HTML, CSS, Tailwind CSS, JavaScript

Database: MySQL, MongoDB

Development Tools/IDEs: VS Code

Version Control: Git, GitHub

PROJECT

Responsive Portfolio Website

– Developed a fully responsive portfolio website to showcase my skills and projects. Designed a clean and user-friendly interface using HTML, CSS, and JavaScript, enhancing user engagement. Integrated interactive features such as social media links and a contact form for seamless user interaction

– Technologies used: HTML, CSS, JavaScript.

Responsive Spotify Clone Web App

– Developed a fully responsive music player web app replicating Spotify's core UI using HTML, CSS, and JavaScript. Built a fully responsive user interface compatible with desktop, tablet, and mobile screens.

– Implemented essential features such as play, pause, mute/unmute, and volume increase/decrease using the JavaScript Audio API. Designed a modern and intuitive interface with an interactive song list and responsive layout using Flexbox and media queries.

– Technologies used: HTML, CSS, JavaScript.

EXPERIENCE

Intern - C++ Programming with DSA

Focused on enhancing skills in C++ programming and Data Structures And Algorithms (DSA).

Oct 2024 - Nov 2024

Intern - Web Development

Frontend Developer (Intern) at MAIN FLOW SERVICES AND TECHNOLOGIES

Jan 2025 - Feb 2025

CERTIFICATES

Aptitude, Soft Skills, and Technical Skill Employability Enhancing Program

5 April 2025

Data Analytics and Visualization Job Simulation, ACCENTURE

28 Aug 2024

Digital Productivity offered by NIIT Foundation

26 Sept 2024
